Any reply received by the Office later than three months after the mailing date of the final rejection, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

The newly recited "method for preventing occurrence of gastric ulcers in a horse" does not exclude a horse who has had ulcers in the past. Furthermore, Papich discloses that anticulcer drugs are prescribed in small animals for the prevention of ulcers, because they may be predisposed to develop ulcers. No unobviousness is seen in using antiulcer drugs in a horse, since both animals have a similar digestive systems.
